If you order any other tests, write their codes from the price list here: _____

When the parameters of calorific value (Q), volatile matter (V), ash content (A) or radioactivity (Cs) as well as any parameters for "Dry material" are ordered, the determination of moisture content (M) is also required and is added to such orders by default. Preparation of the sample for testing (SP; SM; SS; SH) is included in the order by the laboratory as needed.

The person signing this order form confirms that he/she is authorised to represent the customer in regards to this order.

I am aware of the amount of sample required to perform the ordered tests correctly and agree to perform the tests with the amount supplied.

I have read and agree with the terms and conditions of service and payment.
